For anyone in Canberra who doesn't have a long range tank and wants some single track fun give the spot marked on the attached map a try. I had a ball and once again I didn't take any pictures because I thought the helmet cam would have caught all the action, I was really looking forward to seeing where I launched into a small xmas tree. But I didn't get a single bit of video out of it, I have to buy a decent helmet cam any recommendations?

This will be my last ride for five weeks because I am on Holidays but I look forward to trying to organise more rides when I get back.
